

Meet the New Generation

Hoval

Responsibility for energy and environment

Heating your house or preparing hot water has never been so smart and easy like it is now with the new generation of boilers and heat pumps from Hoval.

Ecological

Take responsibility for energy and environment and live comfortably at the same time.

This is now easier than ever before.

Automatically use the weather forecast in real time to heat up your house in cold mornings but reduce the power in a warm afternoon.

Economical

The new generation of Hoval boilers and heat pumps have best in class efficiency helping you to cut your energy bill.

They give you real time and historical information about their performance so you always have an overview on your energy costs.

On your finger tips.

Easy

The new generation „speaks the same language”. So you can easily combine them or extend them with thermal solar-panels to reach the highest energy efficiency standards.

Your personal Hoval expert is happy to assist.

All it takes is just a phone call or a message.

A++

Reliable

You can fully rely on us.

The new generation of Hoval boilers and heat pumps will automatically inform you and our service when they need maintenance or repair.

A Hoval service partner is always near you.

More than 500 000 satisfied customers worldwide can confirm this.

Smart

Let you control your heating over your smartphone to adjust it to your daily or weekly routine - so you save energy during a working day but enjoy a cosy warmth in the evening.

Meet the New Generation

Hoval

Responsibility for energy and environment.

The Hoval brand is internationally recognised as one of the leading suppliers of indoor climate control solutions. Around 70 years of experience have given us the necessary capabilities and motivation to continuously develop exceptional solutions and technically superior equipment.

Maximising energy efficiency and thus protecting the environment are both our conviction and our incentive. Hoval has established itself as an expert provider of intelligent heating and climate control systems that are exported to over 50 countries worldwide.

Hoval indoor climate systems

Indoor climate systems ensure top air quality and economical usability. Hoval has been installing decentralised systems for many years. The key to its work is using combinations of multiple air conditioning units (even those of different types) that can be controlled individually, but also together as a single system. This enables Hoval to respond flexibly to a wide range of requirements for heating, cooling and ventilation.

Design support from experts.

Take advantage of the expertise of our experienced specialists. We will be happy to support you throughout all project phases when designing your system.

Working in close cooperation with you and taking into account all the specifications of the energy supplier, we develop the most efficient and cost-effective solution for you.

Hoval service expertise.

Hoval systems are professionally commissioned by specially trained and experienced Hoval service technicians, ensuring that the systems will operate perfectly from day one. Maintenance and troubleshooting are performed on-site by an expert customer service team.
